

VILLAGE GREEN SEED

GREAT SEED . . . GREAT RESULTS

Features

Medium to dark green colour

Forms a fine dense sward

Diversity in the blend for good summer heat tolerance

Shade tolerant

Benefits

Attractive grass when left to grow form a seed head for ornamental out of play areas.

Stays green year round except under drought conditions

Low fertiliser requirements

Resistant to a range of herbicides.

Seeding Rates (bare ground)

20-30gm per sqm

2-3kg per 100sqm

200-300kg per ha

Distributed by:

Fine Fescue Blend

Amenity Seed Blend

Fine Fescue Blend creates a very fine grass sward requiring low inputs with good drought tolerance.

A blend of Chewings and Creeping Red Fescue providing a durable grass for both irrigated and non-irrigated areas.

Using a blend of premium fine fescues provides good characteristic diversity especially with the creeping nature of the Red Fescue content. Very suitable for use in situations such as golf courses fairways and rough. Suitable for non irrigated roadside areas and other areas with sustainable cover is a requirement.

Use in a wide variety of amenity situations.

- Ornamental Lawns
- Roadsides.
- Golf Course Fairways and rough.
- Low use green spaces.
- Suitable in both shaded and open areas.
