## Benefits

Heat and drought tolerant

Dense sward

Strong summer performance

## Seeding Rates

10-15gm per sqm

1-1.5kg per 100 sqm

100-150kg per ha

## Distributed by:

## Highlander Couch (Bermudagrass)

Highlander Couch grass seed is clearly the choice of homeowners, golf course superintendents, sports turf managers, and landscapers. With a deep rich heritage, and culture suited for the ages. Highlander's fine leaf, dark green colour, uniform texture and dense turf, it is truly the royalty of couch grass seed varieties.

Highlander couch seed provides extreme durability, excellent wear resistance, good winter hardiness and drought tolerance. With improved cold

tolerance Highlander couchgrass has a broader range of adaptability, and greater persistence than other varieties in its class

Suggested for golf and sports turf, professional landscape, and homeowners, Highlander is the ideal choice for turf managers and professional landscapers that require appearance and performance.
